A Letter From The Board of Trustees

Economic Development within Plain Township continues to be a primary focus for the Board of Trustees. Various community reinvestment areas and enterprise zones, which offer tax incentives for business growth, are in place throughout our community. Plain Township works with the Stark County Regional Planning Commission and the Stark Development Board to promote Plain Township and to pursue responsible growth. We work within the framework of the newly updated Mini Master Plan, which serves as a guide for strategic planning within the Township.

Plain Township created a list of potential locations for new businesses, so that if we have a company desiring to locate in our community we have sites readily available to show the potential new businesses. We now have a current site list encompassing several appropriate business development locations for retail, manufacturing, restaurants, and other businesses suitable for responsible growth and development.

Development is ongoing. We anticipate positive results with the redevelopment of the Oakwood Square Plaza. New ownership is in place and is working with the Board of Trustees, our Administrator and our Planning and Development Director to move this project forward.

In addition to economic development, Plain Township has been working on further development within our parks system. We are pleased to announce the Ohio Department of Natural Resources has awarded a \$93,525 grant to

help construct an ADA accessible restroom facility at Schneider Community Park. The Stark County Community Foundation has also awarded \$20,000 and may award an additional \$25,000 with the one-for-one matching grant program. There have also been \$5,000 contributions made by both the Plain Township Rotary and Quonset Hut. Additional contributions were made by Pets Home Alone, the Stark County Humane Society, Humbert Sanitary, Sugarbush Kennels, North Canton Veterinary Clinic, Pond Wiser Inc., Pet Bomb Squad and Viking Community Hospital. *(Please see page 6 to learn how you can help!)* The restroom facility will enable Schneider Community Park to have the amenities necessary to accommodate our residents.

As 2012 draws to an end, we take this opportunity to thank the Plain Township employees who work so hard to make Plain Township a great place to live, work, worship and play. A special thank you goes out to our sheriff deputies, firefighter/paramedics, and road and park employees who keep our residents safe and our parks and roads top-notch. Most importantly, we thank the residents of Plain Township. It is the people who truly embody and grow our shared sense of community spirit.

We wish our residents Happy Holidays and all the best for a joyous New Year. Please contact us if you have any questions, comments or concerns.

Christmas Tree Safety

Carefully decorating Christmas trees can make your holiday safer! Keep these tips in mind this year for a safe and sound holiday season:

- ◆ Always use lights listed by a testing laboratory. Larger tree lights should have some type of reflector instead of a bare bulb.
- ◆ Connect no more than three strands of push-in bulbs and a maximum of fifty screw-in bulbs.
- ◆ Always unplug the tree lights before leaving home or going to bed.
- ◆ Bring outdoor electrical lights indoors after the holidays to prevent hazards and extend their life.
- ◆ Never place lit candles near tree branches.
- ◆ Keep trees alive and moist by giving them plenty of water daily. Do not purchase a tree that is dry or dropping needles.
- ◆ If you purchase an artificial tree, be sure it is labeled as "fire retardant."
- ◆ Keep a watchful eye on young children around the tree.
- ◆ Make sure the tree is at least three feet away from any heat source, like fireplaces or radiators.
- ◆ Safely dispose of the tree when it begins dropping needles. Dried-out trees are highly flammable and should not be left near the garage or house.

Portable Generator Safety

The United States Consumer Product Safety Commission (CPSC) has issued the following tips for the use of portable power generators following power outages:

- ◆ NEVER use a portable generator indoors, even with ventilation. Opening doors and windows or using fans will not prevent CO buildup.
- ◆ Only use a portable generator outdoors in a dry area, far away from doors, windows or vents that lead indoors.
- ◆ Install CO alarms with battery backups in your home, test them frequently and replace dead batteries.
- ◆ Plug appliances into heavy duty, outdoor-rated extension cords and plug the cords into the generator.
- ◆ Get to fresh air right away if you feel dizzy or weak. The CO from generators can rapidly lead to full incapacitation and death.

The Three R's

Every year, Americans throw away 50 billion food and drink cans, 27 billion glass bottles/jars, and 65 million plastic/metal jar covers. More than 30% of our waste is packaging materials. Where does it all go? Some 85% of our garbage is sent to a dump or landfill, where it can take up to 400 years for things like cloth

and aluminum to decompose. Glass has been found in perfect condition after 4,000 years in the earth!

We are quickly running out of space. It's time to learn the three R's of the environment: reduce, reuse, recycle. Then practice what you preach: reuse and recycle whatever you can.

One way to REDUCE the amount of waste you produce is to use your computer! Many newspapers and magazines (including this one!) have a paperless version of their publication that you can view online or have sent directly to your email. (You can email us at general@plaintownship.com to find out how you can save a tree and switch to our e-newsletter.)

You can REUSE products instead of throwing them away. For example, paper grocery bags make great book covers for school books; and coffee cans, margarine containers and more can be used to store small things or make fun arts and crafts projects for children.

The best thing you can do for your environment is RECYCLE! To learn more about recycling in Plain Township, please go to

www.plaintownship.com/recycling.

2012 Grand National Championship

Plain Township Firefighter/Paramedic, Scott Bauer, has just recently clinched the 2012 Grand National Championship for 40 to 49 year olds in the Firefighter Combat Challenge. This challenge is a series of five events that firefighters complete in succession wearing their full firefighter turnout gear. ESPN has called this event "the toughest two minutes in sports."

Scott Bauer has been competing in the combat challenge since 2007, has competed in approximately fifty challenges and has qualified for the World Challenge every year. Along with winning the national championship this year, he was also inducted into the Lions Den, an award given to the competitors that complete the course under a certain time. Scott again participated in the Firefighter Combat Challenge this past November, competing against firefighters from all over the world.

The Plain Township Board of Trustees and Fire Chief Don Snyder wish to recognize and thank Scott Bauer for these accomplishments, as well as many others that each of our firefighter/paramedics face every day in their job.

ATTENTION All Businesses in Plain Twp

Every business in Plain Township, old or new, must register with the Zoning Department. Please do this as soon as possible. We **must** have current records in our files, or your business is in violation of the Plain Township Zoning Resolution.

A Certificate of Conformance Permit is required for every business in Plain Township. It is also required *prior* to anyone occupying a building in a business, office or industrial district. A new permit is required for any change in business use, ownership or tenant.

If you are a business in Plain Township, please check to make sure that you have a current Certificate of Conformance. The Zoning Department will be reviewing our records this season to make sure every business has a current and up-to-date Certificate of Conformance.

Applications can be picked up and filled out at our office, Monday through Friday from 8:00 a.m. until 4:30 p.m. Once the application is filled out, the Plain Township Fire Department will inspect the property. A permit will be issued once the appropriate departments have finalized all inspections.

A Certificate of Conformance Permit costs \$40 and is valid for the life of the business, as long as the business use, owner or tenant does not change.

Remember that it is the responsibility of the property owner or landlord to inform the tenants of the need to apply for a Certificate of Conformance.

NEW ZONING FEES

Please note that on May 22, 2012, the Plain Township Board of Trustees passed a resolution to change the zoning fee schedule. There are a variety of changes and one new addition dealing with Internet Café/Skilled Games. Please be sure to check the Zoning page at www.plaintownship.com for the new fee schedule.

Sign Permits

Almost any temporary sign requires a sign permit. So before you put out the next banner or portable sign, make sure you have obtained your sign permit from the Zoning Department.

A temporary sign permit is good for thirty days. You may put out a temporary sign for two months out of a six-month time period. Please apply for and obtain your temporary sign permit *before* placing it outside of your business.

All permanent signs require permits!

New Website Additions!

You can now find more zoning information for Plain Township online at www.plaintownship.com. Just click *Departments* then the *Zoning* tab and follow the links to the resource you are looking for. You will find our Zoning Map on the right-hand side of the webpage. You can use this map to check the zoning districts of areas around you or help you identify particular zoning areas quickly. This map is subject to change, but all of these changes will be listed on our website as they occur.

Ever wonder what your property is zoned? Thinking of buying or selling your property and not sure how to list it? Our Zoning Classifications of Properties list can be found on the left side of the *Zoning* webpage. This is a list of all township properties that you can search by address or parcel number to find out how a particular property is zoned. We strive to have the most accurate information possible; this list will be updated as changes occur.

Many roads within Plain Township are maintained by other public entities. This can lead to some confusion to residents within the township. Listed below are the roads that seem to cause the most confusion and the telephone numbers of the public entities responsible for their maintenance.

Parking Snow Ban

Please remember that no parking is allowed on the paved surface of posted streets when there is more than two inches of snow on the ground. Several Plain Township roadways will be posted this year with *No Parking* signs. The ban will be strongly enforced. We also request that residents on non-posted streets be courteous in moving their cars so that plowing can be done in a timely manner. Thank you!

Winter Reminders

- ◆ Please do not place trash cans in the roadway when it snows.
- ◆ Remember to stay at least fifty feet back from salt trucks so that your vehicle is not damaged by salt spreaders. If you are too close, your vehicle may not be visible to the driver through the mirrors.
- ◆ Portable basketball hoops must be removed from the

township right-of-way.

- ◆ We apologize for snow blocking driveways and cul-de-sacs; however, at times this is unavoidable in order to clear the roadways safely.
- ◆ If a SNOW PLOW knocks down your mailbox, please call us. After the snowfall has ended the repairs of mailboxes will be evaluated in the order in which they were received. If caused by a SNOW PLOW, repairs will be done as time allows.
- ◆ Main roads throughout the township are salted and plowed first, then the secondary roads. Trucks are assigned to specific areas and no area has priority over any other.
- ◆ If your yard or driveway apron is damaged from snowplows, please call us and your name will be put on the list for repairs in the spring.
